2008 MAR -3 P 4: 13

AZ CORP COMMISSION  
DOCKET CONTROL

Commissioner Mayes,

Please accept the attached letter regarding the improper handling of the RFP documents for the K2 Well in Strawberry, I was not allowed access the the documents, yet Pine Water Company is using taxpayer funds to drill this well.

Thank you, Rosemary Paul

Arizona Corporation Commission  
DOCKETED

MAR 3 2008

DOCKETED BY

On Friday, February 29, 2008, I spoke with Mr. John Breninger, project manager for Pine Water Company's K2 well site. I requested a copy of the request for proposal (RFP) documents for the proposed well project. Mr. Breninger refused my request saying that I am "not a licensed well driller in the state of Arizona."

In the legal notice published in the Payson Roundup (and also available online at their website), it states, "One proposal packet will be provided each interested party at no charge." I am an interested party. The legal notice does NOT state that packets are available only to licensed well drillers. According to the legal notice, the RFPs are to be opened at 2:30 pm on Monday, March 3, 2008.

I find it highly questionable that Mr. Breninger, former chairman of the Pine Strawberry Water Improvement District (PSWID) governing board, is now the project manager for Pine Water Company's very controversial project, and why does he refuse to allow the public access to the RFP documents.

This legal notice is also signed by Mr. Jim Richey, PSWID Designated Representative. Questions and messages to Mr. Richey have gone unanswered.

Excuse me, I must now go and check the woodpile for rats. I smell 'em!

Rosemary Paul
